MESSAGE

I am delighted to learn that Sheba Manab Kallayan Kendra (SMKK) is going to publish its Annual Report for 2008. I had the opportunity to see activities of SMKK first hand when I visited Bagerhat in the immediate aftermath of super cyclone sidr and more recently when I toured the sidr-affected districts. In both visits, I have been impressed by the commitment and sense of social mission with which SMKK has pursued its activities in support of the poor and vulnerable population in the disaster-prone districts of southern Bangladesh. What marks out SMKK in the NGO activities is its rootedness in the local community and a willingness to find innovative solutions to the manifold problems of poverty which beset the rural population. I was particularly pleased to see that SMKK did not confine itself to the beaten tracks in its sidr-assistance activities but took that extra trouble to take assistance to isolated communities in the interior of the affected districts. SMKK's approach to housing support was noteworthy in ensuring durable structures and covering a minimum number of families in affected villages. SMKK together with a few other NGOs are also in the vanguard of motivating the one-crop farmers of southern Bangladesh in adopting new crops and ensuring a more sustainable livelihood for the poor in this region. Skill development linked to local business is another of the interesting activities which captured my visit to SMKK activities.

I would like to congratulate M. Manjur Kadir, Executive Director, SMKK and his colleagues for the commendable sense of social mission they have demonstrated in their organizational activities. I hope they persevere in this sense of social mission. I wish the organization and all its members as well as the beneficiaries success in their efforts to overcome the burdens of poverty.

Hossain Zillur Rahman
Advisor for Commerce and Education
Caretaker Government
BANGLADESH

Date: 30/12/08

Message from the Executive Director

I have the pleasure to publish Annual Report - 2008 of Sheba Manab Kalyan Kendra (SMKK). The organization have been successfully completed its 12 Years of journey in the development field. Beginning in January 1996, SMKK has relentlessly been working hand in hand with the poverty stricken people of southern area of Bangladesh. After the devastations of historic cyclone Sidr hit in November 2007, a numbers of projects have been implemented for rehabilitation in shelter reconstruction agriculture, fisheries, livestock sector to improve the socio-economic situation of the Sidr victims, especially for the most vulnerable community of coastal district. The organization is growing up slowly but expanding its program gradually.

During the year 2008, 23 projects have been implemented by SMKK through which 41,964 families were covered. Sidr, that halted the lives of common people has started their normal life again with the support receiving in many ways. We are sincerely recognizing the assistance received from the National and International donor agencies.

Our sincere gratitude to Food and Agriculture Organization (FAO) of United Nations, WorldFish Center -WFC & USAID, Hope'87 Austria, Islamic Relief- Worldwide, Muslim Aid-UK , Muslim Aid Australia, UNICEF, Bangladesh NGO Foundation, Training and Technology (TTT) Ltd., STROMME Foundation, BRAC and CODEC. Under their financial and technical assistance, all the projects have successfully achieved the targets and brought a sustainable impact in the lives of the targeted beneficiaries.

We highly pleased to acknowledge the cooperation from the local administration, especially the Deputy Commissioner of Bagerhat, Pirojpur, Barguna, Khulna and Satkhira. The Upazila Nirbahi Officers of Jacknowledge the patronage and encouragements received from the Local UP Chairman, Ward Members and other elites of the working area.

We are also conveying our thanks to the Executive Committee and from the honorable members of the Advisory Board. Without their guidance we could not achieved these success and we may lose our confidence towards development activities.

SMKK is honored to have the membership of the networks related to different activities and also working with them as active partners. I must not forget the cooperation received from the local Government officials, local administration, fellow NGOs, CBOs working in the area.

I convey my special appreciation to my hard working staff members who have been found to be dedicated in their respective field. Without having their positive attitude toward accomplishment of goals, it would not be possible to implement the projects. I would like to thank my colleagues as well the beneficiaries for their devotion.

I am delighted to express about our new office premises, which has recently been constructed in its own land and inaugurated in March 2008. Many dignitaries paid their visits in our office that gave us new enthusiasm and their suggestions have given us strength for future.

A handwritten signature in black ink, appearing to read 'M. Manjur Kadir', with a date '31/12/08' written below it.

M. Manjur Kadir
Executive Director
SMKK, Bagerhat

BACKGROUND:

Sheba Manab Kallyan Kendra (SMKK) was established in 1996 as a non-Profit non government, non-political, private voluntary development organization-NGO/PVDO. Beginning of SMKK's was started with few development programs in response to the felt needs for the disadvantaged people of the poor communities. Some enthusiastic social workers, Educationist and dedicated youths initiated the establishment of the SMKK with a view to educate and help its target beneficiaries to help them in improving their overall socio-economic growth and improve their livelihood.

Bangladesh is one of the most densely populated and poorest countries in the world with a GDP (5.5). The per capita income of the population is US \$ 440. Almost half of the population lives under severe poverty. 28 million people are considered living under extreme poverty with a current annual population growth of 1.75 (U.N Population Information net work, 1998), the number of hard core people are likely to be increasing alarmingly. About half of the population is children with a widespread illiterate (80% in the rural areas).

The main objectives of SMKK are to improve skill based capacity development of its target beneficiaries of the underprivileged families in rural and urban areas through incessant motivation, training, education, organization building and action programs for their own

benefits. SMKK is intended to provide necessary technical and financial support to the target beneficiaries to acquire adequate skills and knowledge leading to self-employment.

With some of these development initiatives in mind, SMKK has been working among the neglected people especially women and children since its inception, in a spirit of equality mutual trust and exploitation of human resources for the well being of the marginal families of the poor communities. SMKK helps the unemployed youths in acquiring technical skills through different training for their self reliance. SMKK organized groups of un/underemployed women and then works with them for empowerment through education. Skill development training and then enter with action oriented programs with their participation.

Impacts of on going training and development programs are significant where youths and poor women of the disadvantaged communities are being ensured with necessary supports, they need. And such programs need to be increased and expanded elsewhere in the poor communities, where SMKK is active. But adequate financial assistance is at urgent need to meet the growing necessity and to achieve remarkable and sustainable development. Its other objective is to foster qualitative and quantitative improvement in the living of the target beneficiaries of the poor communities.

OBJECTIVES OF THE ORGANIZATION:

The long term objectives of the organization include;

- " To build awareness of the people about socio-economic structure and their role in the development process.
- " To encourage people to come under SMKK umbrella to overcome the existing situation and improve livelihood.
- " To eradicate poverty by utilization of internal and external resources.
- " To educate illiterate children and men & women
- " To initiate institution building campaigns;
- " Campaign anti-drug education and to aware about AIDS & STDs
- " To improve health care facilities , MCH and FP services;
- " To rehabilitate the affected victims of women & child trafficking & acid burns.
- " To implement pilot projects for employment for the target beneficiaries.
- " To afford access of the target beneficiaries to NGOs and govt. facilities.
- " To carry canal digging for reserving water irrigation.

VISION:

The long term envision of SMKK is empowerment of its target beneficiaries through education, health services training and development approaches ensuring social and economical development for the disadvantages and destitute and remove sufferings of the resource poor people.

MISSION:

The mission of SMKK is guided in providing technical & financial supports enabling the target beneficiaries to involve themselves in various development programs to create income and employment opportunities for their sustainable development.

STRATEGIES:

Implicit in the programs strategy is a belief in the efficacy of strengthening the demand side of the services equation based on felt needs of the target beneficiaries. The strategy of the development and training programs included the following:

- " To provide the target groups with different need based training for improving professional efficiency;
- " To organize groups for the target male and female beneficiaries both in the urban and rural areas;
- " To promote awareness through education, training and exchange of technical know how for sustainable development;
- " To mobilize youths for playing effective role in socio-economic development activities leading to self - reliance;
- " To create opportunity for exploring and mobilizing locally available resources;
- " To undertake different government programs for raising awareness of the target beneficiaries emphasizing on employment, health, sanitation, food value, safe drinking water, MCH & FP, protection of environment and other programs for community development.
- " To ensure women participation in the development activities and raising awareness for preventing child abuse; cruelty on women, strengthening sound gender relation, increasing income of women through various IGAs;
- " To afford access to the target beneficiaries to NGO and Government operated credit facilities for income generating activities
- " To establish contacts with credit and other support services offered by the NGOs, Government agencies, international donors etc.

THE IDEOLOGIES:

- " Participation in decision making and promotion of participatory approaches at all levels
- " Self evaluation and constructive criticism
- " Mutual respect, unity, discipline and mutual cooperation
- " Honesty, transparency and accountability at all level
- " Dedication and sincerity

MANAGEMENT PRACTICES OF SMKK:

SMKK is administered and managed by a team of bodies and committees as per provision of its constitution. At the top, SMKK is governed by the general committee, comprising of 21 members. A powerful executive committee (E.C) of 7 members elected by the members of general committee is overall managing the organization. The details of the EC are as follows:

" Chairman	: 1
" Executive Director	: 1
" Financial Director	: 1
" Director	: 4
Total	= 7

The executive committee members again elect sub-committee for implementation of specific programs undertaken by SMKK. All management is bestowed on executive committee, headed by Chairman who is responsible for planning programs, making policies and implementation of the programs.

BOARD OF ADVISORS:

SMKK is also guided by an advisory board comprised by 7 Senior and renowned personalities who are reputed for their extraordinary works in their respective field were included in the board. They are voluntarily takes the important tasks of reviewing the programs, advice for future strategies and contribute in annual planning of the SMKK. SMKK feels proud for them and recognize their sincere dedication with the success of the organization.

Beneficiaries : Total: 95,920 comprising of 26,875 male and 69,045 female

Staff Strength: Total: 225, Male: 136, Female: 89

Working Area: 3 Divisions, 9 Districts, 18 Upazilas, 70 unions and Powrasovas, 285 villages

THE SPREAD OF SMKK OPERATION AREA:

Increasing demand and with the shift of appropriate approaches from charity to development, SMKK programs have been expanded to 18 Upazilas under 9 Districts. Extremely hard-core and poor people have been brought under the coverage. About 41,964 new families have been additionally included with the assistance of both technical and financial. Preference were given to include women and children and mostly from the Sidr victims.

The rapidly expanding series of development programs were targeted to draw the attention of beneficiaries for which numbers of poor people seeking help form SMKK.

Table presented the present working areas:

Sl.No	Division	District	Upazila	Union/Powrashova	Villages
1	Dhaka	Gazipur	Kapashia	1	2
		Gopalganj	Kotalipara	2	7
			Tongipara	2	7

			Patukhali	Mirzagonj	2
		Pirojpur	Nesarabad	4	16
			Bhandana	3	14
Mothbaria	2	7			
Total	3	9	18	65	268

Bangladesh was struck by the devastating cyclone SIDR on 15th of November 2007 which created a massive havoc in the communities that it ripped through. Bangladesh counted its losses in billions in terms of human lives, material and livelihood.

Housing damages represent the most visible and tangible damages associated with SIDR. According to GOB sources, the total number of houses damaged was about 1.5 million out of which about 37% were reported as fully damaged, and 63% partially damaged. Approximately 4.7 million people, most of them the poorest of the poor, are in need of immediate life and livelihood saving relief assistance.

More than 1.6 million acres of cropland was reportedly badly damaged, the main crop damaged being rice. According to GOB estimates approximately 382,000 livestock animals were killed, the large majority believed to be cattle (a loss of household assets as well as a loss in terms of milk production). Food production has declined due either to the damage to boats, nets etc. or to the unavailability of labor which was diverted to other critical activities like housing repair and reconstruction.

According to GOB figures more than 8,000 educational institutions were damaged, large quantities of educational material, including books and furniture, were destroyed and the few schools that could remain open experienced big drop in attendance. As a consequence of the above livelihood of the people were severely affected.

Immediately after the Sidr, SMKK carried out massive relief and rescue operations in the Sidr areas. With the financial assistance of national and international donors, the organization responded in relief and rehabilitation activities in most remote areas. SMKK has undertaken different projects which includes; House construction, shelter repairing, water and sanitation, rehabilitation of Fisheries and prawn culture, seed and fertilizer distribution among the small and marginal farmers, distribution of vegetable seeds, distribution of milking cows and disbursement of interest free credit for restarting of income generation activities. The Sidr response services of SMKK covered at least 35 upazilas of Bagerhat, Pirojpur, Khulna, Barisal, Bhola , Barguna & Jhalakati

SMKK also undertaken programme on disaster preparedness and awareness programme aiming to face the challenges during the natural calamities. The organization intended to bring about the changes in the area and create self initiated programmes involving the community as it is obvious that the country is under threat of different calamities due to global climate change.

THE TABLE REPRESENTING THE PROGRAMME IMPLEMENTED DURING THE YEAR 2008 UNDER THE FINANCIAL ASSISTANCE OF DIFFERENT DONOR AGENCIES.

Funding Agencies	Area Covered		No. of Families Covered	Nature of works
	District	Upazila

INCOME AND EMPLOYMENT GENERATING PROGRAMS:

I. Seed Distribution & Extension Support to the SIDR affected Farmers

- ◆ Funded by: Food and Agriculture Organization (FAO) of the United Nations
- ◆ Duration of the project: June 2008 to November 2008
- ◆ Fund Utilized: Tk. 836,313,350.00
- ◆ Location: Betagi and Bamna upazila of Barguna district

Objectives of the project:

- ◆ Support Sidr victim farmers to cultivate the food crops
- ◆ Improve situation of food security
- ◆ Improve farmer's skill and capacities

Activities Performed:

- With the direct cooperation from DAE local offices and local elected UPO Chairman and Members, a list of target far families had been prepared and cross checked before finalization of farmers list

- Stocked all the inputs at the godown of SMKK in two upazilas.
- Distribution of inputs to 30,883 beneficiaries among which 21,322 farmers in Betagi and 9,561 farmers in Bamna.
- Each marginal and small farmers household received 5 Kgs. of Amon Rice Seed (HYV), 5 Kgs. of local variety rice seed, and 25 Kgs of fertilizer that covered a total of 10,000 farmers.
- Seeds of pulses and Ground nut distributed among 20,883 farmers.
- Carried out monitoring and follow up support to ensure effective utilization of inputs by each farmer.

I. Increasing Rice Production, Quality Seed Preservation for HYV Aman and Cropping Pattern

- ❖ Funded by: Training & Technology Transfer (TTT) under Agricultural Technology Transfer Project of JBIC & BARC
- ❖ Duration of the project: July 2008 to December 2010
- ❖ Fund Utilized: Tk. 532,000.00
- ❖ Location: Amtali upazila of Barguna district and Kawkhali upazila of Pirojpur district.

Objectives of the project:

- ❖ Transfer of improved Agricultural Technologies in the coastal areas
- ❖ Improve Yield per unit area
- ❖ Poverty reduction through farming of high value crops
- ❖ Introduction of high value crops for increasing agricultural production in coastal districts.
- ❖ Replace existing cropping pattern through induction of HYV crops and disseminated agricultural technologies.
- ❖ Increase farmers skills and knowledge in using modern cultivation practices.

Activities Performed:

- ◆ Establishment of linkages and maintain a close liaison with upazila Agriculture Officer and his staff members assigned for project area for obtaining their cooperation and assistance for successful implementation of the project.
- ◆ Bench mark survey for reference and selection of 75 farmers for each technology as per prescribed format given by ATTP-TTT
- ◆ Selection of potential resource poor farmers in the project through survey and individual contact.
- ◆ Group formation of resource poor farmers and training on selected agricultural technology.

- ◆ Target beneficiary training. Technology transfer training will be organized for a number of 150 farmers (75 farmers for each technology) where Upazila Agriculture Officer will be invited as resource person besides our trained staff members
- ◆ Establishment of Demonstration of the selected agricultural technology and continue field extension support.

I. Poverty Alleviation in southern districts through Agrotechnology Transfer

- ❖ Funded by: Winrock International under Agricultural Technology Transfer Project of JBIC & BARC
- ❖ Duration of the project: July 2006 to June 2008
- ❖ Fund Utilized: Tk. 110,500.00
- ❖ Location: Tala upazila under Satkhira district

Objectives of the project:

- ❖ Transfer of improved Agricultural Technologies to the poor farmers
- ❖ Improve Yield per unit area
- ❖ Poverty reduction through farming of high value crops
- ❖ Introduction of high value crops for increasing agricultural production in coastal districts.
- ❖ Replace existing cropping pattern through induction of HYV crops and disseminated agricultural technologies.
- ❖ Increase farmers skills and knowledge in using modern cultivation practices.

Activities Performed:

- ❖ Provided training on technology transfer: 396 beneficiary (140 female)
- ❖ Established Demonstration: 90 Plots (0.12 hectare each)
- ❖ Replication: 101 farmers adopted the technology in Mathbaria upazila under Pirojpur district
- ❖ Field days: Organized 3 field days in 3 separate locations participated by 650 farmers
- ❖ Service Provided: Group formation, Extension, supervision, market linkages, micro - credit etc.

II. Seed distribution to the SIDR affected Small and Marginal Farmers

- ❖ Funded by: STROMME Foundation & CODEC
- ❖ Duration of the project: July 2008 to December 2008
- ❖ Fund Utilized: Tk. 300,000.00
- ❖ Location: Nesarabad upazila under Perojpur district

Objectives of the Project:

- ❖ Support Sidr victim small and marginal farmers to cultivate vegetables
- ❖ Improve nutritional intake of the poor families and to increase income
- ❖ Improve farmer's skill and capacities

Activities Performed:

- ❖ Distributed different vegetable seeds among 500 small and marginal farmers.
- ❖ Provided extension and technical support to the beneficiary farmers.
- ❖ Establish linkages with local DAE officers

V. Rehabilitation of Aquaculture in the Sidr affected areas

- ❖ Funded by: WorldFish Center-WFC & USAID
- ❖ Duration of the project: March 2008 to February 2010
- ❖ Fund Utilized: Tk. 17,428,305.00
- ❖ Location: Sharankhola, Morrelganj, Rampal & Bagerhat Sadar upazilas of Bagerhat district

Objectives of the Project:

- ❖ Support Sidr victim small and marginal farmers for fish and prawn culture
- ❖ Restore fish production and increase production in the coastal area.
- ❖ Utilized pond and gher for fish production to increase employment and income generation.
- ❖ Improve farmer's skill and capacities

Activities Performed:

- ❖ Assessed loss of fish and prawn farmers caused by Sidr
- ❖ Organized farmers groups, provide training on pond/gher preparation and technical aspects of fish/prawn culture.
- ❖ Distributed fingerlings of fish and juveniles of prawn to the listed small and marginal target families who lost their assets during Sidr.
- ❖ Established linkages with local fisheries department for technical support

VI. Rehabilitation Program through distribution of Milking Cows

- ❖ Funded by: HOPE'87 - Austria
- ❖ Duration of the project: July 2008
- ❖ Fund Utilized: Tk. 900,000.00
- ❖ Location: Sharankhola upazila of Bagerhat district

Objectives of the Project:

- ❖ Support for income generation of Sidr victim small and marginal farmers.
- ❖ Assist most vulnerable Sidr victims to increase their family income

Activities Performed:

- ❖ Distributed 75 Milking cows among most vulnerable families affected during the devastated cyclone Sidr.
- ❖ Provided technical support and vaccination/treatment facilities to the beneficiaries

VII. Micro Finance for Income Generation Activities

- ❖ Funded by: CODEC & STROMME Foundation
- ❖ Duration of the project: January 2008 (Ongoing project)
- ❖ Fund Utilized: Tk. 300,000.00
- ❖ Location: Nesarabad upazila of Perojpur district

Objectives of the Project :

- ❖ Support Sidr victim small and marginal farmers for income and employment opportunity
- ❖ Increase opportunity of family based income

Activities Performed:

- ❖ Disbursed interest free micro credit to 99 poor families affected during Sidr
- ❖ Established linkages with other micro financing institutions

Micro Finance for Income Generation Activities

- ❖ Funded by: CODEC & STROMME Foundation
- ❖ Duration of the project: January 2008 (Ongoing project)
- ❖ Fund Utilized: Tk.2,200,000.00
- ❖ Location: Nesarabad upazila of Perojpur district and Betagi upazila of Barguna district

Objectives of the Project:

- ❖ To support in starting of income generation activities by the poor and disadvantaged families
- ❖ Create income and employment opportunity for the poor families
- ❖ Improve livelihood standard of the poor community
- ❖ Increase opportunity of family based income

Activities Performed:

- ❖ Disbursed micro credit to 517 poor families affected during Sidr
- ❖ Provide marketing support to the beneficiaries
- ❖ Established linkages with other micro financing institutions

VIII. Micro Finance for Income Generation Activities (Own Fund)

- ❖ Funded by: SMKK Revolving Micro-Credit Fund
- ❖ Duration of the project: January 2008 (Ongoing project)
- ❖ Fund Utilized: Tk.12,000,000.00
- ❖ Location: 18 upazilas of Perojpur, Bagerhat and Barguna district

Objectives of the project:

- ❖ To support in starting of income generation activities by the poor and disadvantaged families
- ❖ Create income and employment opportunity for the poor families
- ❖ Improve livelihood standard of the poor community
- ❖ Increase opportunity of family based income

Activities Performed:

- ❖ Disbursed micro credit to 2488 poor families
- ❖ Provide marketing support to the beneficiaries
- ❖ Established linkages with other micro financing institutions

OTHER SOCIAL DEVELOPMENT ACTIVITIES IMPLEMENTED DURING THE YEAR 2008

I. Low Cost Housing for Poor Families

- ❖ Funded by: Bangladesh bank (Grihayan Tahabil)
- ❖ Duration of the project: January 2008 (Ongoing project)
- ❖ Fund Utilized: Tk. 935,000.00
- ❖ Location: Nesarabad upazila of Perojpur and Betagi upazila Barguna district.

Objectives of the project :

- ❖ To support in poor families for reconstruction/construction houses

Activities Performed:

- ❖ Disbursed long term credit to 34 poor families with minimum interest and flexible repayment schedule

II. Integrated Community based Arsenic Mitigation program (ICBAMP)

- ❖ Funded by: NGO Forum, European Commission & MISEREOR
- ❖ Duration of the project: January 2008 (Ongoing project)
- ❖ Fund Utilized: Tk.230,000.00
- ❖ Location: Fakirhat upazila of Bagerhat district

Objectives of the project :

- " To identify the presence of Arsenic in the HTW/DTW water used by community people
- " Provide awareness about arsenic contamination and its possible measure
- " To ensure Arsenic free water sources for the use of safe water for community people.

Activities Performed:

- " Undertaken survey of HTW and DTW for detection of arsenic presence and marking with Red and Green color.
- " Provide training the 2450 families to make them aware on arsenic problem
- " Installed Arsenic free DTW in the area.
- " Establish linkages with DPHE and local Public Health Services Institutions.

III. Networking & Advocacy for Child Rights in Bangladesh

- " Funded by: DANIDA & BSAF
- " Duration of the project: January 2008
(Ongoing project)
- " Fund Utilized: Tk. 15,535.00
- " Location: All upazilas of Bagerhat district

Objectives of the project :

- " To create awareness on Child Rights in Bangladesh and the role of community people

Activities Performed:

- " Provided awareness raising training to the community people on the Child Rights and the role of community people to combat the child trafficking and reduce hazardous work of the children

IV. Education Support Program

- " Funded by: BRAC, Dhaka
- " Duration of the project: January 2008
(Ongoing project)
- " Fund Utilized: Tk. 270,189.00
- " Location: Rampal upazila of Bagerhat district

Objectives of the project :

- To prevent dropout of the poor children from regular education
- Provide active support for continuation of education of the children of poor families

Activities Performed:

- Provided necessary support to 300 children who were dropped out from the regular education including educational materials
- Organized community awareness campaign on importance of education and role of parents.

V. Education for Adolescent Girls (Sanglap)

- Funded by: STROMME Foundation & CODEC
- Duration of the project: January 2008 (Ongoing project)
- Fund Utilized: Tk.150,000.00
- Location: Nesarabad upazila of Perojpur district

Objectives of the project :

- To improve the literacy situation for adolescent girls and
- Improve women rights in the community.

Activities Performed:

- Organized education for adolescent girls following adult literacy curriculum
- Organized awareness of the community people regarding women rights and importance of girls education.
- Provided necessary support to reduce early marriages in the project area.

VI. Construction of Dwelling Houses for the Sidr victims

- Funded by: Bangladesh NGO Foundation
- Duration of the project: November 2007 to December 2008
- Fund Utilized: Tk.8,395,023.00
- Location: Morrelganj upazila of Bagerhat district

Objectives of the project:

- To help most vulnerable families for safe living and to prevent migration
- Support Sidr victims through construction of Cyclone resilient shelter

Activities Performed:

- Constructed 123 Pucca houses for the Sidr affected most vulnerable families.
- Provided social awareness about finding alternative income sources for improvement of livelihood.

VII. Re-construction of Religious Institutions in the Sidr areas

- " Funded by: HOPE'87-Austria
- " Duration of the project: November 2007 to December 2008
- " Fund Utilized: Tk.100, 000.00
- " Location: Nesarabad upazila of Perojpur district

Objectives of the project :

- " To provide social services through reconstruction of religious centers
- " Create communal harmony in the area.

Activities Performed:

- " Reconstructed 5 Mosque in Nesarabad upazila to ensure safe place for Muslims in social gathering and prayer.

VIII. Rehabilitation of Sidr affected Poorest Families

- " Funded by: HOPE'87-Austria
- " Duration of the project: November 2007 to December 2008
- " Fund Utilized: Tk.5,603,000. 00
- " Location: Nesarabad upazila of Perojpur and Sharankhola upazila of Bagerhat district

Objectives of the project :

- " To provide cyclone resilient shelters to the poorest people affected during Sidr
- " To ensure safe place for living.

Activities Performed:

- " Reconstructed 146 cyclone resilient shelter in 2 upazila for poorest people affected during the Sidr

IX. Re-construction of Religious Institutions in the Sidr areas

- " Funded by: Bangladesh NGO Foundation
- " Duration of the project: March 2008 to October 2008
- " Fund Utilized: Tk.90, 000.00
- " Location: Morrelganj upazila of Bagerhat district

Objectives of the project :

- " To provide social services through reconstruction of religious centers
- " Create communal harmony in the area.

CONCLUDING WORDS

Considering the implementation of the project both on income and employment generation, social development activities and Sidr response program, the overall performance of SMKK is quite satisfactory. But we do believe that still it has long way to go ahead to achieve the cherished objectives. It is very hard to find out an easy way through which the development of the disadvantaged people can be done. Without having the active support and participation of the community people, sustainable improvement can not be achieved.

As SMKK is closely involved with the people living in the coastal areas, natural calamities are usually hampered their development. It is agreed by all that literacy causes ignorance which in terms causes manifold problems both in the life of the poor people and in the communities and the nation to remove all the hurdles toward minimum standard of living.

The organization is mainly dependent on the financial assistance of donor agencies to undertake development initiatives that urgently needed to support the disaster victims for restoration of their normal lives. SMKK would appreciate the interested donors, partners and well wisher for their assistance either technical or financial.

SMKK has experienced and dedicated staff members who are committed to their jobs and the organization follows the strategy of human development for which we can assure that any resources received from the donors would be best utilized. Our financial management is more transparent and audited by the competent Chartered Accounting Firm in very year and have also opened for any donor agencies for verification.

We have strong relationship with the local administration and local government that privileged to ensure our services to the most deserve beneficiaries without any discrimination. We tried our best to reach the most vulnerable and deprived people and stands besides their initiative with our limited resources.

To reduce the gap between have not and wealth owner, many issues like reduction of poverty, gender discrimination, child labor, polygamy, early marriage, school drop-out, ill health, under weight birth of babies, cruelty on women, safe drinking water and sanitation, unemployment and under employment and many others need to be addressed to improve the livelihood of the people, peace and harmony in the society. SMKK has relentlessly marched forward to overcome these pointed issues. But it is not enough for the organization alone to drive its mission. SMKK need cooperation and sharing of other development partners for strengthen their hands. We acknowledged patronage and encouragements received all way long from a host of national and international friends and development partners and hoping their continual support in coming days as well.
