## **Foreword**

**Sheba Manab Kallyan Kendra (SMKK)** has crossed successfully yet another eventful year 2012, its 17<sup>th</sup> year of operations in the field of poverty reduction services. Some new areas have been covered during the year under the partnership with government, national & international donors including. As part of the commitment to keep informed the stakeholders including donors and local government authorities on the activities undertaken during the year, this Annual Report has been publishing for year 2012 containing statement of different activities, achievement, outcomes and successes as well constraints.

Since its inception in the year 1996, SMKK has unremittingly been working hand in hand with the poverty stricken people of different districts with particular focus in the southern districts of Bangladesh. A numbers of projects have been implemented in disaster affected area through supporting in reconstruction of shelters, agriculture, fisheries, livestock, and water and sanitation sector.

During the year 2012, a total of 24 projects are being implemented by SMKK through which more than 53,230 beneficiaries were covered under its services.

Our deepest gratitude to FAO, WFP, UNDP, WorldFish Center, USAID, PRICE, HOPE'87-Austria, CARE Bangladesh, Winrock International, UNICEF,, Muslim Aid-UK, Bangladesh NGO Foundation, STROMME Foundation, CODEC, BRAC, NGO Forum DWSS, Islamic Relief, Bangladesh Bank, LGED, DAE, DoF, DLS, BWDB, Ministry of Women and Child Affairs, SONNE International Austria, Pubali Bank Limited, The Art of Living Foundation & UNEP, Save the Children, Ministry of Labor and Employment for their financial and technical assistance and guidance in implementation of the projects.

We are delighted to recognize the active cooperation from the local administration, especially the Deputy Commissioner (DC) of Bagerhat, Pirojpur, Barguna, Khulna, Rangpur, Dinajpur and Gazipur. The Upazila Nirbahi Officers of the respective upazila who were provided timely and active support in different phases of the project implementation. I thankfully acknowledge the patronage and inspirations received from the Mayors and UP Chairmen, Ward Members and other elites from the working area.

We are also thankful to the members of Executive Committee and the honorable members of the Advisory Board. It made possible to achieve these successes through their guidance and support that enhanced our courage and confidence towards development activities.

Finally I am taking the opportunity for appreciation to all hard working staff members who have been found to be enthusiastic in their respective field. It would not be possible to uphold the image of the organization without having their dedication and sincerity toward accomplishing the assignments, I would like to thank my colleagues as well the beneficiaries for their devotion.

**M. Manjur Kadir**  
Executive Director

**31 December, 2012**

## Background of the SMKK

Sheba Manab Kallyan Kendra (SMKK) is a non-profit, non-political voluntary development organization, established in January 1996 and working since the inception of the organization, it has been implementing integrated development projects/programmes with the poorer section of the community with particular focus to address the rights of children and women for bringing a positive change in their livelihood. Over time SMKK has gained experience and capacity by working on various development issues with technical and financial support from multifarious donors. It has gained a significant institutional competency to implement larger initiatives for achieving development objectives.

SMKK has a team of SMKK 249 staff and volunteers who are well qualified and experienced to project implementation of livelihood, vulnerable group development & empowerment for wider adoption by its target beneficiaries, thus enabling them to attain improvement of livelihood standard. The organization has so far been involving over 349,660 people through development initiatives presently being implemented.

SMKK has experience in implementing income generation activities through off-farm and agro based technology transfer, including Agriculture, Fisheries, Forestry, Livestock, home based IGA operated by women. SMKK has been working for women empowerment through involving them in different income earning activities and linked with micro finance for startup capital. It has also long working experience in building institutional capacity development of the rural community people to address social issues through collective efforts. Participatory approaches are being followed to identify issues and action-oriented program implemented to address these issues that hindered the process of their development.

SMKK strongly believes in target population concept for its basic development efforts in which the focus is the destitute and disadvantaged poor with emphasis on children and women. The organization follows regular monitoring, feedback, sharing experiences and immediate action for the successful implementation of the projects/programmes. It is dedicated to foster qualitative and quantitative improvement in the living standard of the target beneficiaries.

SMKK has a policy to work in that area where the people are comparatively more vulnerable. Its programmes specially targeted to ensure its support to establish rights of the women, adolescent girls and children to remove social injustice and bring a society free from discrimination.

## Objectives of the Organization

### The long term objectives of the organization include;

- To build awareness of the people about socio-economic structure and their role in the development process;
- To encourage people to come under SMKK umbrella to overcome the existing situation and improve livelihood;
- To eradicate poverty by utilization of internal and external resources;
- To educate illiterate children and men & women;
- To initiate institution building campaigns;
- Campaign anti-drug education and to

- aware about AIDS & STDs;
- To improve health care facilities , MCH and FP services;
- To rehabilitate the affected victims of women & child trafficking & acid burns;
- To implement pilot projects for employment for the target beneficiaries;
- To afford access of the target beneficiaries to NGOs and govt. facilities;
- To carry canal digging for reserving water irrigation.

## Vision

The long term envision of SMKK is empowerment of its target beneficiaries through education, health services training and development approaches ensuring social and economical development for the disadvantages and destitute and remove sufferings of the resource poor people.

## Mission

The mission of SMKK is guided in providing technical & financial supports enabling the target beneficiaries through their active participation (men, women and children) in various development programs to generate income and employment opportunities for their sustainable development and improvement of livelihood standard. Building community based institutions to address social issues those are dominating directly or indirectly the process of their development.

## Strategies

Implicit in the programs strategy is a belief in the efficacy of strengthening the demand side of the services equation based on felt needs of the target beneficiaries. The strategy of the development and training programs included the following:

- ❖ To provide the target groups with different need based training for improving professional efficiency;
- ❖ To organize groups for the target male and female beneficiaries both in the urban and rural areas;
- ❖ To promote awareness through education, training and exchange of technical know how for sustainable development;
- ❖ To mobilize youths for playing effective role in socio-economic development activities leading to self – reliance;
- ❖ To create opportunity for exploring and mobilizing locally available resources;
- ❖ To undertake different government programs for raising awareness of the target beneficiaries emphasizing on employment, health, sanitation, food value, safe drinking water, MCH & FP, protection of environment and other programs for community development;
- ❖ To ensure women participation in the development activities and raising awareness for preventing child abuse; cruelty on women, strengthening sound gender relation, increasing income of women through various IGAs;

- ❖ To afford access to the target beneficiaries to NGO and Government operated credit facilities for income generating activities;
- ❖ To establish contacts with credit and other support services offered by the NGOs, Government agencies, international donors etc.

## **The Ideologies following by SMKK**

- ❖ Participation in decision making and promotion of participatory approaches at all levels
- ❖ Self evaluation and constructive criticism
- ❖ Mutual respect, unity, discipline and mutual cooperation
- ❖ Honesty, transparency and accountability at all level
- ❖ Dedication and sincerity

## **Governance of SMKK**

SMKK is governed and managed by a team of bodies and committees as per provision of its constitution. At the top, SMKK is governed by the General Committee, comprising of 17 members. A powerful Executive Committee (EC) consisting of 7 members elected by the members of general committee. The EC is headed by one Chairman and assisted by 6 Directors and responsible for overall planning and management of the organization.

For effective management of the project, sub-committees are being formed by the Executive Committee and the decentralized management practices are helping in expediting project implementation. Executive Committee usually organizing regular meeting for planning, reviewing, providing guidance to the Executive Director in allocation of resources, coordination and implementation of projects and taking strategic decision for the organization.

Annual General Meeting (AGM) are being held once in a year where the Chairman of the EC presents annual progress and financial reports and keep informed to all the members of the general committee.

## **Board of Advisors**

SMKK is also guided by an advisory board comprised by 7 senior and renowned personalities who proven expertise in their respective field. They are working voluntarily and dedicated their time and contributing in planning and management of the organization. Their valued expert services are highly appreciated and SMKK feels honored for them and recognize their sincere services for the humanity.

## Membership with Networks

## Projects Implemented so far by SMKK

Totally 83 project have so far been implemented by SMKK since its inception under the technical and financial assistance of national and international donors. Most of the projects were targeted to reduce poverty through generation of income and employment opportunities. Some projects were exclusively targeted to rights, education, water, sanitation and health related activities, transferring of knowledge and skills among the poor and marginal families for undertaking different agricultural and non-agricultural income earning activities as the major focus area for addressing poverty at individual level and contributing to the national development processes. Also some projects were short-term and those were addressing the immediate need of disaster victims of the SIDR and AILA.

Through those projects, more than 2.1 million beneficiaries were supported; among them about 85% were women. It has been revealed from different studies carried by the internal and external evaluation that significant changes are witnessed in the livelihood of the beneficiaries. SMKK has given special attention to attain self reliance by the individual and community through their group initiative. Community led approaches has been cultured and supported during implementation of the project that helps in sustainable development among the beneficiaries.

SMKK also tried to provide support in linking with other NGOs for sustainability and established a viable linkage with government service providing department, especially for agricultural technology transfer, water, sanitation, health and nutrition services for ensuring supports to the beneficiary after withdrawal of project funding.

SMKK has given utmost responsiveness to ensure proper service delivery to the target beneficiaries. All the projects were successfully implemented and highly appreciated by the concern funding organization.

The following table is presenting the lists of projects which are being implemented by SMKK till December 2012.

82.	USAID & PRICE	Economic Development in Horticulture Sector	Bagerhat	2012-2013	2000

As a part of humanitarian activities, relief and rehabilitation work has been carried out in AILA affected areas like previous year and provided support in restoration of the lives of the disasters victims. The devastations of SIDR and AILA was quite different in nature and intrusion of saline water totally disrupted normal life of the affected areas but it is a matter of fact that the wreckages and long term effect on the people could not draw the attention of the humanitarian national and international organization and no such rehabilitation programme were carried out like SIDR.

## Programmes and Activities of SMKK

SMKK's activities mainly are divided into two broad category; Training and Development programs. To achieve the development objectives of the organization, SMKK have been offering skill development training courses to the beneficiaries; men, women, adolescents and youths belonging to poor and disadvantaged families of both rural and urban areas. Some short term special courses have been organized aiming to create immediate employment opportunity of the trained beneficiaries. Trained members got employment support services including micro-credit or are assisted to have links with other institutions for employment.

A separate training unit has been established within the organization under the leadership of one coordinator and technology based training equipment and other logistics have been arranged for all training centers. For capacity development of the concern staff members, in-house and external

training organized for improving training skills. In most of the technical courses, concern public and private recourse persons are usually been invited. Module and methodologies are regularly reviewing for making of learner's friendly training.

**The following training courses are being organized for the beneficiaries.**

### **Name of the Training Courses**

1	Skill development training for IGAs	14	Business Development Services
2	Traditional Birth Attendant (TBA)	15	Value Chain development Approach
3	Maize, Paddy & Wheat Production Training	16	Training for Safe Delivery & Infant Care
4	Disaster Preparedness	17	Nursery & Vegetable gardening
5	Watsan, Health & Nutrition	18	Gender Balance
6	Poultry Farming	19	Fish Farming
7	Handicraft Training	20	Vocational Training
8	Coconut Fiber Craft Training	21	Wooden Craft Training
9	Earthen Craft Training	22	Bamboo & Bet Craft Training
10	Jute Crafts Training	23	Mobile Beauty Parlor Training
11	Beef Fettering Training	24	Mobile Phone Servicing Training
12	Female Driving Training	25	Electronics & Electrical Training
13	Food Making Training	26	Scrint Print, Block & Butick Print

### **Development Programme**

1	Group formation, Institution Building, Baseline survey & PRA	18	Women and Child Rights
2	Savings Accumulation and Utilization	19	Non-formal Adult and Child Education
3	Micro-credit for IGAs	20	Rural Enterprise and Agricultural Development Project
4	Gender Equity Development Activity (GED)	21	Tree Plantation & Nursery gardening
5	Child Development Programme	22	Low Cost Housing Program
6	Disaster Preparedness, Relief and Rehabilitation program for Disaster Victims	23	Integrated Community Based Arsenic Mitigation Program-ICBAMP
7	Combating Child Trafficking	24	Business Development Services
8	Aqua Culture Rehabilitation Project	25	Human Rights, Good Governance
9	Awareness Raising on HIV/STDs & AIDS	26	Rehabilitation of Disabled
10	MCH, Nutrition & Free Friday Clinic	27	Agricultural Development Program
11	Micro Enterprise Development Programme	28	Religious Program for the poor people
12	Social Mobilization for Livelihood Activities	29	Construction/ Re-construction of Social and Religious Institution.
13	Health, sanitation and Safe Water	30	Adolescent Girls education
14	SIDR/AILA Shelter & Rehabilitation Program	31	Sustainable Energy for Development
15	Poultry production	32	Climate Change Development Programme
16	Bio-gas installation for ecological balance.	33	Pre-primary education for ultra poor
17	Food Facility Project	34	Advocacy program for education of Early Marriages & Dowry

## The Spread of SMKK Operational Area

Increasing demand and with the expansion of the project area, SMKK's services has been reached to the communities of **490 villages** of **42 upazilas** under **15 districts**. About **53,230** new families have been additionally included during the reporting year

The following table is presenting details of working area as of December, 2012

### SMKK working areas

SI.No	Division	District	Upazila	Union	Villages
1	Khulna	Bagerhat	Sadar, Rampal, Saronkhola, Morelganj, Fakirhat, Kachua, Mongla	34	183
		Khulna	Sadar & Phultola	5	20
			Dakob & Koira	2	5
			Dumuria & Dighalia	5	43
		Jessore	Sadar & Monirampur	4	6
			Keshobpur & Jikargasha	2	4
Satkhira	Tala	2	8		
2	Barisal	Barisal	Kotwali & Bakergonj	4	8
		Barguna	Sadar, Betagi, Bamna, Amtoli, Pathorghata	16	80
		Patuakhali	Mirzagonj, Golachipa, Kalapara	7	19
		Bhola	Borhanuddin	1	3
		Jhalakati	Sadar, Kathalia	3	9
		Pirojpur	Nesarabad, Kawkhali, Bhandaria, Mothbaria, Nazirpur	13	42
3	Dhaka	Gazipur	Gazipur, Kapashia	2	15
		Gopalganj	Kotalipara, Tongipara	4	14
4	Rajshahi	Bogra	Dhunat	1	3
		Rangpur	Rangpur	1	17
		Dinajpur	Dinajpur	1	11
Total		15	42	107	490

### Urban Working Areas of SMKK

Sl.	Division	District	City Corporation	Municipality
1	Khulna	Bagerhat	--	Bagerhat Municipality
2	Barisal	Barisal	Barisal City Corporation	--
		Pirojpur	--	Nesarabad Municipality
3	Dhaka	Dhaka	Dhaka City Corporation	--
			--	Savar Municipality
		Gazipur	--	Gazipur Municipality
4	Rajshahi	Rangpur	--	Rangpur Municipality

## Coverage till December, 2012

**Beneficiaries:** Total: 3,49,660 (286,220 female and 63,440 male)

Ratio: Male 19% Female: 81%

**Staff Strength:** Total: 249, Male: 164 (66%), Female: 85 (34%)

**Working Area:** 4 Divisions, 15 Districts, 42 Upazilas, 107 unions and 490 villages, 2 City Corporation and 6 Municipality

## Donor Assisted Programmes implemented during the year 2012

Some projects have been continued as it was planned and **24 more new projects** have also started during the year. Totally **53,230 targeted beneficiaries** have been covered under these short and medium term projects. The table appended below is the list of programmes implemented during the year 2012 under the financial assistance of National and International donors.

No	Name of the Project	Name of Donor/ Partner/ Funding Agency	Location	# of HH
1.	Micro credit and Rural Agricultural Credit Programme	STROMME Foundation, CODEC & Pubali Bank Ltd.	Bagerhat, Pirojpur & Barguna	2,560
2.	Interest Free Micro-credit Program for SIDR victims	CODEC & STROMME Foundation & NGO Forum, EC & MISEREOR	Pirojpur & Bagerhat	315
3.	Low cost Housing for poor Families	Bangladesh Bank (Grihayan Tahabil)	Pirojpur & Barguna	1000
4.	Eradication of Hazardous Child Labour in Bangladesh (3 <sup>rd</sup> phase) Project	Ministry of Labour and Employment, Government of Bangladesh	Badda Thana, Dhaka City Corporation	570
5.	Urban Partnerships for Poverty Reduction project (UPPRP)	UNDP, UK Aid, LGED & CARE Bangladesh	Rangpur, Dinajpur, Gazipur, Savar Pauroshova	2000
6.	Vulnerable Group Development (VGD) Program	Department of Women Affairs (DWA) & WFP	Pirojpur	7500
7.	Support to Working Lactating Mother Programme	Department of Women Affairs (DWA) under the Ministry of Women and Child	Barisal City Corporation	2000
8.	Water Management Improvement Project (WMIP)	Bangladesh Water Development Board (BWDB), World Bank & Netherlands	Patuakhali	1500
9.	Education for Adolescent Girls (Sanglap Program)	CODEC & STROMME Foundation	Pirojpur	1800
10.	Non Formal Primary Education (NFPE)	CODEC & STROMME Foundation	Pirojpur	90
11.	Quality School Program	CODEC & STROMME Foundation	Pirojpur	560
12.	Education Support Program	Bangladesh Rural Advancement Committee (BRAC)	Bagerhat	450
13.	Local Poultry Farming for ultra poor families	Bangladesh NGO Foundation (BNF), MoF	Pirojpur	550
14.	Free Friday Clinic	SMKK own fund	Pirojpur & Barguna	1800
15.	Coconut Tree Plantation Program under Billion Tree Campaign	The Art of Living Foundation & UNEP	Pirojpur & Bagerhat	200
16.	National Domestic Biogas and Manure Programme (NDBMP)	SNV, Netherlands Development Organization & IDCOL	Bagerhat & Pirojpur	10

17.	Early Childhood Development Program including Preprimary Education under PROTEEVA project	Save the Children	Pirojpur	60
18.	Dig A Well Project under WASH Program	Muslim Aid-UK	Pirojpur	1500
19.	Hygiene, Sanitation and Water Supply Project (HYSAWA)	DANIDA through NGO forum for public health	Bagerhat	2500
20.	Feed the Fasting Program under Ramadan Program	Muslim Aid-UK	Bagerhat	25
21.	Qurbani Program	Muslim Aid - UK	Bagerhat	100
22.	Sustainable Rice Seed Production and Delivery System in Southern Bangladesh (SRSPDS)	USAID through SHADE-Bangladesh	Bagerhat	200
23.	Aquikah Programme	Muslim Aid - UK	Bagerhat	100
24.	Economic Development Project in Horticulture Sector under Poverty Reduction by Increasing the Competitiveness of Enterprise (PRICE)	USAID-PRICE	Bagerhat	2000

## Training Programmes

During the year, SMKK organized different human and skill development training for the beneficiaries to increase their basic awareness, knowledge, behavior, attitude and entrepreneurship. Well designed training materials (mostly visual) were used for the target recipients and practical sessions were organized for the skill development training. SMKK hired some experienced resource persons from other organization besides its own training personnel. Strong emphasis was given to utilize the knowledge in their daily life to increase income. Regular mentoring and extension support and in some cases refresher training was organized for the beneficiaries.

A total of **38,856 beneficiaries** were trained on **23 courses** under **5 sectors** during the reporting year, out of which **36,698 were female** and **2,158 were male**.

For selection of training participants, a care selection process was followed, especially for the off-farm IGA. Physical facilities in operation of the selected trade, its market opportunity and financial capabilities are considered during the process of selection. These exercises have prevented misuse of resources and more than 85% trained beneficiaries have utilized their skills. Similar approaches also applied for other agricultural training.

Follow-up services were rendered at the community level for ensuring proper utilization of the skills and micro-finance supports were given to the trained beneficiaries. A strong business development services have also been provided to establish a market linkage with the input supplies and bulk buyers. For agricultural activities, local officials from DAE, DLS and DoF were invited in the training courses and a viable linkage have established that enabled the beneficiaries for taking necessary technical advises as and when required. These approaches also help in sustainability of the project activities and long term impact has been created.

As it has been mentioned, SMKK has been working to empower the women and providing necessary support in increasing their awareness, skills, knowledge and income earning opportunity. A comparison of training participants on different sector is presented in the following figure.

All the off-farm IGA training was conducted with practical demonstrations and on spot assessment was carried out and repetition on the session was done to provide exact skills that needed to operate the training. It was greatly considered that the illiterate participants should acquire adequate skills from the training that will help them in running the business successfully and would be able to compete with other business operators.

Under the project of Urban Partnerships for Poverty Reduction (UPPR) project, a total of 2,000 women from Rangpur, Dinajpur, Gazipur & Savar Pauroshova took part in skill development training on different home based IGAs. The training was organized in close cooperation of the Pauroshova authorities and CARE project staff members.

Course wise details of the training are presented in the following table.

### Details of training organized during the year 2012

SN	Name of Training Courses	Duration	No. of Participation		
			Male	Female	Total
<b>Agriculture Sector</b>					
1.	Horticulture & vegetable gardening	1 day	1600	3000	4600
2.	BRR I Dhan 28/47 Cultivation Technology	1 day	200	--	200
3.	Aus Cultivation Training	1 day	200	--	200
4.	Homestead vegetable cultivation	2 day	-	3000	3000
<b>Fisheries Sector</b>					
5.	Carp/GIFT Fishery Training	2 day	-	3000	3000
6.	Aquaculture Training	1 day		3000	3000
<b>Livestock Sector</b>					
7.	Poultry Rearing Training	2 days	-	3400	3400
8.	Backyard Poultry Raring and Prevention Bird Flu	1 day		3400	3400
9.	Goat Rearing Training	2 days	-	3400	3400
10.	Cow Rearing Training	2 days	-	3400	3400
<b>Off-farm Income Generating Activities</b>					
11.	Jute Crafts production	10 days	-	984	984
12.	Beef Fettering	4 days	100	32	132

23.	Awareness on HIV/AIDS & SDTs	3 days	-	2200	2200

## Micro Finance for Income Generation Activities and Rural Agricultural Credit Program

The program is supported by CODEC/STROMME Foundation and Pubali Bank Limited to open an opportunities for starting and/or re-starting income generation activities for improving overall livelihood situation of the poor and marginal families. This initiative for disbursement of micro-credit to the poor farmers was started in the year of 2006 as pilot basis. The ultimate results in poverty reduction through supporting in increasing agricultural production were found to be highly effective and now the program has been extended other area. Currently the program is successfully operating in 18 upazilas under Pirojpur, Bagerhat and Barguna district. Some basic information of the program is as follows:

**Fund received so far from CODEC/STROMME Foundation:** BDT 132,00,000

**Fund received from Pubali Bank Limited:** BDT 40,00,000

**Total amount disbursed till December, 2012:** BDT 10,43,85,850

**Total amount realized as of December, 2012:** BDT 92,565,700

**Number of families covered:** 2,560

**Outstanding as on December, 2012:** BDT 1,10,39,916

**Operational areas:** 18 upazilas of Pirojpur, Bagerhat and Barguna districts

**The prime objectives of the micro-financing program were to;**

- Support the poor and disadvantaged families in improving livelihood through micro financing in undertaking income generation activities.
- Help in generation of income and employment opportunity for the poor families.
- Reduce dependency on the traditional money lending practices with higher rate of interest.
- Create facilities of income and employment opportunities.
- Help in accumulation of saving fort building own capital

For achieving the objectives, following activities have been carried out and facilitated the poor and disadvantaged families in generating their own savings fund to reduce the dependency on the external support that will help them in standing as self help group.

- ❖ Assessed physical and financial feasibility at individual level and Scope of women employment and role of female members in operating the IGA.
- ❖ Identified the individual interests to operate self employed income generation activities.
- ❖ Assess funding requirement, cost-benefit ratio and opportunity of expansion of the business.
- ❖ Provided market information and supported in establishing linkages with different market actors.
- ❖ Established linkages with other micro financing institutions.

### **IGAs Selection Planning and Management (SPM) Training of group members under Micro-credit Programme**

STROMME Foundation & CODEC allocated 29,950.00 BDT for Leadership and capacity building training on Income Generating Activities during 12 to 18 December, 2012 at Nesarabad upazila under Pirojpur district.

<b>SI</b>	<b>Name of Training</b>	<b>Beneficiaries</b>	<b>Duration</b>
1	Leadership Training on Selection Planning and Management	32	1 day
2	Beef Fettering	32	1 day
3	Fish Culture	32	1 day
4	Poultry Rearing	32	1 day
5	Homestead Gardening & Nursery	32	1 day

### **Interest Free Micro Finance to SIDR affected Families**

Considering the existing situation in the SIDR affected areas, SMKK has undertaken a program to disburse interest free micro credit among the most vulnerable families in the most affected areas. The program also supported by CODEC & STROMME Foundation, NGO Forum, EC and MISEREOR. This initiative helped the recipients in starting and/or restarting of home based income generation activities and contributed in reducing food insecurity. The program only covered the beneficiaries of Nesarabad upazila under Pirojpur district which is inadequate to meet the demand. An amount Taka 392,500 has only allocated for the program and it has already been proved as an effective tool for improving livelihood of the most vulnerable disaster affected families, especially the women headed families. Though it was a beginning of the program that has been initiated and the fund is being used as revolving credit fund and necessary steps are take to ensure maximum utilization of the resources and try to manage more funds to cover more areas.

The ultimate objective of the initiative was to provide financial support to the victims of SIDR and AILA who had lost their assets and have no capacities for (re) starting their income earning activities and usually have no alternative source of managing fund. The specific objectives of the project are;

- ❖ To create employment and income opportunities for the most vulnerable families affected during SIDR.
- ❖ To create alternative livelihood options through self employed business
- ❖ To reduce dependency on the external relief assistance
- ❖ Improve livelihood situation.

**Following activities have been carried out to achieve the planned results;**

- ❖ Selected most vulnerable families with special consideration to women headed families through active partition of community people;
- ❖ Disbursed interest free micro credit among 315 poor families affected during Sidr;
- ❖ Provided extension and business development services to the credit recipients for operating profitable IGAs;
- ❖ Established linkages with other micro financing institutions;

### Low Cost Housing Program for poor families

Housing for the poor communities is a major concern as they have lack of resources to invest for construction of house. Low cost housing program has been started by SMKK in the year of 2003 under the funding support of Bangladesh Bank (Grihayan Tahabil). This is long term project through which credit supports are being provided to the poor families with less interest and flexible repayment facilities. Till end of December, 2011, a total of BDT 4,750,000 has so far been disbursed.

The project is being implemented at the Nesarabad upazila of Pirojpur district and Betagi upazila of Barguna district and during the year 34 poor families have been included for the housing support.

Since the operation of the project, it reveals from the monitoring report that the utilization and repayment of the fund is highly satisfactory. Bangladesh Bank authority extended their support and expressed their satisfaction on the performance and given commitment for continuation of the project. Through the project, one of basic need of human being has been fulfilled and dream of poor families is becoming truth.

## Urban Partnership for Poverty Reduction Project (UPPRP)

**Supported by:** CARE Bangladesh

**Funded by** : UNDP, UK Aid & LGED

**Fund Tk** : 47,80,206.00

**Duration of the project:** 2011-2012

**Location:** Savar, Gazipur, Rangpur & Dinajpur Pauroshova, District: Dhaka, Gazipur, Rangpur & Dinajpur

The UPPRP, a project is being implemented by the UNDP in close collaboration of LGED and Municipal authority, aiming to reduce the poverty of urban poor and extreme poor. SMKK was awarded a contract for organizing skill development training for the project beneficiaries under Savar, Gazipur, Rangpur & Dinajpur Pauroshova.

An amount of Taka 4,780,206 was allocated for the training of UPPRP beneficiaries on different off-farm income generation activities. All the trades were selected based on the suitability for operating by the trained beneficiaries. SMKK engaged specialized Master Craftsman for conducting those training in all pauroshovas. The activities were successfully carried out with the active cooperation from the management of UPPRP, CARE and Municipality.

The overall objective of the training program was to reduce poverty and hunger for poor and extreme poor people living in urban areas by increasing their incomes and assets and the specific objectives were to;

- ❖ Create access to wage employment by increasing the technical capacities of poor and urban poor people living in urban areas and linking them with appropriate sources for employment; and
- ❖ Build capacities of peri-urban poor and extreme poor people to engage in small enterprise, agro development processing.

To achieve the object and respond in the term and conditions for the assignment SMKK developed training manual for all the training detailing the course curriculum including methodology. Emphasis was given to impart the training that helps the target participants for acquiring best skills and knowledge. All the training was conducted by using demonstration, practicing and learning. Necessary skills on budgeting and market planning, business linking with input suppliers and bulk buyers also being done. Best efforts were dedicated to make the training program successful and it is anticipated that the trained beneficiaries would be able to utilize the skills for their livelihood improvement. Market linkage and market development supports were given to the beneficiaries.

The skill development training was conducted for following trades.

- Jute crafts training
- Beef fettering training
- Bamboo crafts training
- Door mat training
- Coconut fiber crafts training
- Earthen crafts training
- Block batik training
- Food processing training
- Tailoring training

## Eradication of Hazardous Child Labour in Bangladesh (3<sup>rd</sup> phase) Project

**Funded by:** Ministry of Labour and Employment, Government of the People's Republic of Bangladesh

**Fund Tk:** 52,65,000/-

**Duration of the project:** May 2012 to October 2015

**Location:** Dhaka City Corporation

**Beneficiaries:** 570

### Objectives of the project:

- ❖ To identify 600 child labourers of age 10-14, who are involved in child labour by a simple survey.
- ❖ To aware their parents not to involve in child labour and their by eradication of child labour and established child labour.
- ❖ To encourage the working children to go to schools for education.

### Activities Performed:

- ❖ Prepare survey template/questionnaires
- ❖ Provide orientation of staffs, Conduct survey
- ❖ Monitoring and validation of survey findings (5%).
- ❖ Compilation and tabulated Survey report
- ❖ Project staffs will aware parents regularly through personal contact, house to house visits and group discussions.
- ❖ They will discuss with them about child rights, child education, affects of involving children in different heavy works, future to the childrens etc.
- ❖ They will also use different charts, posters, fillip chart, documentary film shows etc. for raising their awareness about the children's future.
- ❖ They will arrange parents gathering, meeting and workshop and seminars to raise their awareness level regards the bad consequences and affect of child labour how to build their children as future capable citizen.
- ❖ The identified child labourers will be organized and aware about their future, value of education their rights bad affects of child labour, how to build them as future citizen and future parents.
- ❖ Different extra –curricular activities like games, competition, rally, observed child rights day etc. to be organize to build awareness and encourage child labourers to attending schools for education and skill training.
- ❖ Project staffs will regularly visit the identified children and encourage them to go to schools and get education.

## Vulnerable Group Development (VGD) Program

**Funded by:** Department of Women Affairs under the Ministry of Women and Child Affairs (MOWCA) GOB

**Duration of the project:** May 2010- February 2013

**Fund Utilized:** Tk. 31,78,929/-

**Location:** **Upazila:** Mothbaria, Nesarabad, Kawkahali & Nazirpur, **District:** Pirojpur

**The objectives of the project are;**

- ❖ To improve overall socio-economic conditions of the VGD beneficiary women.
- ❖ To build income-earning capacities of VGD women
- ❖ To empower the VGD beneficiaries through awareness training
- ❖ To build skill through IGAs training

Under the scope of work, following activities are being carried out to achieve the planned objectives.

**Provided training on IGAs and social awareness.**

- ❖ Main activities of this project the total VGD women are covered by the development packages services including VGD mandatory saving management. There are several steps that are to be covered by development package services as follows social awareness training, IGA skill training, Access to credit, Refreshers & IGA support.
- ❖ Increases awareness on STI/AIDS through informal learning sessions and organize awareness campaign against STI/AIDS
- ❖ Imparted training on income generating activities.
- ❖ Provided support and motivation for saving & credit management

## Support to Working Lactating Mother Programme

**Funded by:** Department of Women Affairs (DWA) under the Ministry of Women and Child

**Fund Tk:** 660,000/-

**Duration of the project:** 2012-Dec 14

**Location:** Barisal City Corporation

**Objectives of the project:**

- Save mother and children life
- Reduce health disease and nutritional crisis
- To build up their skill for IGAs work for increasing income in their family.
- To reduce poverty in local community and nationally.
- To ensure hygiene practice in their family.
- To empower the rural women

## Activities Performed:

Main activities of this project the total 2200 working lactating mother are covered by the training services on mother and child health, nutrition, hygienic practice and IGAs with the concern of department of women affairs.

## Water Management Improvement Project (WMIP)

Under the financial assistance of World Bank and Netherlands through Bangladesh Water Development Board (BWDB), the project is being implemented at Kolapara upazila of Patuakhali district for a period of 5 years and has been started during middle of the year. Total allocation of fund is Taka 360,000.

### The objectives of the project are to;

- ❖ Improve national water resources management by involving the local communities to play an expanded role in all stages of the participatory scheme cycle management (PSM), from planning and design to operations and management.
- ❖ Enhance institutional performance of the Country's principal water institutions, particularly BWDB and WARPO.
- ❖ Reduce vulnerability and enhance livelihood opportunities for the beneficiaries through increased food production and favorable environment for improved water resources management.
- ❖ Capacitate project's operational management by the local stakeholders.

### The following activities are carried out to achieve the expected results of the project

- ❖ Organized Water Management Group (WMG) and Water Management Associations (WMA) mobilizing the local community where WMG & WMA do not exist.
- ❖ Re-organized and strengthening the Water Management Group and Water Management Associations where those are exist but are not strong enough to function.
- ❖ Mobilized, motivated and aware the beneficiaries to develop their sense of ownership and responsibility about the schemes.
- ❖ Develop capacity of the WMG and WMA members through training, meeting and workshop so that they can self run the WMG and WMA.
- ❖ Provided necessary supports for sustainability of Water Management Organization.

## Education for Adolescent Girls (Songlap Program)

The Songlap program has been implementing under the financial assistance of STROMME Foundation & CODEC. The project was started in the year of 2008 to 2014 and continuing as agreed by the management of both organizations. Currently, the project has been implementing at Nesarabad upazila of Pirojpur district. Total amount of Taka 1, 167,340 was allocated against the project and out of which Taka 25,00,000 has so far been utilized during the reporting year.

The project is addressing the most demand based issues as a significant percentage of the population are young and adolescents and most of the rural adolescents have no or less education and knowledge on the safety, health and hygiene issues that are mostly relevant to their present and future life. Even the ignorance of the parents in arranging early marriage and its consequences can be more threat in the life of the adolescents.

However, through the Songlap Program, a section of the community are becoming aware on the life skills and practicing in their life that is ultimately securing their future. This is one of most appreciable and result oriented program of SMKK

### The objectives of the project are;

- ❖ To improve the awareness of the adolescent girls and change their role in the society as change makers
- ❖ To improve women rights in the community and prevention of STI/AIDS
- ❖ Increase knowledge on reproductive health and hygiene practices of the targeted adolescent's girls.
- ❖ Increase awareness on the human rights and other social issues

### The following activities are being performed to achieve the planned results.

- ❖ Organized education for adolescent girls following adult literacy curriculum
- ❖ Organized awareness of the community people regarding women rights and importance of girl's education.
- ❖ Provided necessary support to reduce early marriages in the project area.
- ❖ Raising awareness on STI/AIDS and re-productive health.

## Non Formal Education

The Non Formal Education Program has been lunched under the financial assistance of STROMME Foundation & CODEC and implemented at Nesarabad upazila of Pirojpur district. Total Funds: 350,000/-

Through the project, community based education program has been carried out to prevent dropping out of the children and provided necessary support for enrolling and continuing their education in the mainstream schools. The specific objectives of the program were;

- ❖ To prevent dropout of the poor children from regular education
- ❖ To improve education in the community.
- ❖ Provide active support for continuation of education of the children of poor families

To achieve the objectives of the program, following activities have been performed in the working area and a remarkable success has been observed in the communities and rate of dropout is reduced as zero percent.

### The activities were

- ❖ Provided necessary support to 90 children who were dropped out form the regular education including educational materials.
- ❖ Teaching them from class 1 to 3 in this center
- ❖ Organized community awareness campaign on importance of education and role of parents

## Quality Education Program

The Quality Education Program has also been lunched under the financial assistance of STROMME Foundation & CODEC for a period of one year and implemented at Nesarabad upazila of Pirojpur district. Total Funds: 250,000/-

With the aim of providing quality education to the young learners, a learner's friendly education curriculum has been introduced through which the young learners from the poor families are found to be capable in building a foundation of formal education. Training was organized for the Teachers and school management committee members and holding parents meeting.

### The specific objectives of the program were;

- ❖ To ensure quality education in the community register primary school.
- ❖ Provide active support for continuation of education of the children of poor families
- ❖ Improve quality of primary education.

Adequate measures were taken to improve the school management which are identified as B & C grade registered primary school improvement through training to the management committee of the schools and supported with Class equipment & materials support and organizing annual cultural & sports program for improvement of the teaching environment. It revealed that those activities have increased the enrolment of the students and overall results of the young students has been showing a positive trend.

## Education Support Program (ESP)

**Funded by:** BRAC

**Duration of the project:** January 2006-December 2013

**Fund Utilized:** Tk. 23,99,651/-

**Location:** Rampal upazila under Bagerhat district

Poverty is closely linked with education as the human poverty leads to the other root causes of poverty, thus SMKK strongly believes in education and this is one of the important areas of the organization. A special attention was given to impart the lessons of education through formal and informal sessions and focus was given to the dropped out children in bringing back them in formal education.

The schooling program was started in the year of 2006 under the financial support of BRAC and will be continued till end of 2012. The organization is trying to mobilize more resources for operating more schools in other area. The school program currently running at the Rampal upazila of Bagerhat district and Taka 23,99,651 has been utilized during the year.

**The specific objective of the programs is;**

- ❖ To prevent dropout of the poor children from regular education.
- ❖ Provide active support for continuation of education of the children of poor families.

**To achieve the planned results of the program, following activities are being carried out during the year.**

- ❖ Provided necessary support to 450 children who were dropped out form the regular education including educational materials.
- ❖ First phase 300 children 10 school center and 2<sup>nd</sup> phase 150 children 5 school center.
- ❖ Organized community awareness campaign on importance of education and role of parents.

## Local Poultry Farming for ultra poor

Under the financial support of Bangladesh NGO Foundation, SMKK is implementing a project for income generation through rearing of local poultry birds. The project will have no operational cost, e.g. feeding cost but after rearing of 6-9 months, the beneficiaries will have some income to support their family as well as this will help in increasing nutritional intake. The project was started in September, 2009 and ended in December, 2013 and utilized an amount of Taka 900,000. The project was provided support to 200 poor families under Nesarabad upazila of Pirojpur district.

### The specific objectives of the project were;

- ❖ To reduce poverty and increase income of the extreme poor families.
- ❖ To increase nutritional intake of the target families
- ❖ To build their skill on local poultry farming.

Though this a traditional IGA and almost all families in the rural areas have local poultry birds but due to lack of proper care, like feeding, safe housing and vaccination, mortality was high and laying performance is lower comparative to the hybrid poultry. To increase the production of local poultry birds and reduction of vaccination, necessary knowledge was transferred to the beneficiaries. In addition, following activities were performed to achieve the better results.

- ❖ Provide 2 days long training support on local poultry farming for 200 beneficiaries.
- ❖ Distribution of poultry cages each beneficiaries 1 cage.
- ❖ Distribution of 9 hens and 1 cock total 10 to among 100 beneficiary.
- ❖ Distribution of 10 duck among 100 beneficiaries

## Free Friday Clinic Program

Health and affordability for treatment of the poor families is still a major concern as those families have no enough resources for managing fees of the physician and cost of medicines. The initiative was taken to help the poor and distressed people for their treatment of some common diseases. This is not a large program but have a good impact in the community. People, who have no money for their treatment, now are getting proper health care support from the organization. The program is running under Nesarabad upazila of Pirojpur district & Betagi upazila of Barguna district through utilizing own fund of SMKK and active cooperation from the doctors of the respective upazila. Total funds: 355,000/-

Under the program, doctors are attending in a selected spot in each Friday and checking the health of the poor men, women and children free of cost and some medicines are distributing among the patients. The program is highly appreciated by the community people. Besides, some other health related issues were addressed to create awareness among the community people.

- ❖ Awareness raising of the adolescents on reproductive health, role of youth, potential threat of STD and HIVs, effect on the family life, society and long term impact of the diseases.
- ❖ Organized courtyard sessions with the parents to aware on nutrition and primary health care.

## Coconut Tree Plantation Program

**Supported by:** The Art of Living Foundation & UNEP

**Fund Tk:** 45,000/- (1000 coconut tree saplings)

## Activities for Disabled People

During the year 2012, SMKK implemented activities for disabled people to increased their socio-economic condition. The mention below activities has done during the year 2012;

Activities	No. of Person
Cow, goat, poultry inputs and training support through Local Poultry Farming Project	32
IGA support through micro finance program	63
IGA and life skill training through Vulnerable Group Development (VGD) Program	42

## CONCLUDING WORDS

As a development organization, SMKK is committed to its target communities in eradicating their poverty and trying to address multifarious socio-economic issues which are encumbering the process of development. The organization follows the strategy of partnership and participatory program planning and implementation to build an ownership attitude among the target service recipients from which those beneficiaries can go forward with their own initiative and ultimately reduce the dependency on the external.

The Baseline Survey is a prime tool to learn about existing situation and also necessary to assess the needs of the target group and to determine what was important for facilitation of effective implementation of the project. Through household level survey, discussions with community members and key informants and relevant stakeholders, the survey provided benchmark information on the variables/ like levels of awareness/knowledge of community members on their rights and legal issues, their vulnerability to violence, overall existing pattern and prevalence of violence in the community, access to and availability of support services, which would be used for assessing the project impact. This information would help develop a vulnerability mapping for the purpose of determining appropriate intervention spots.

Similarly, outcome survey, periodic review and mid term evaluation and end evaluation will help in understanding about the effectiveness, efficiency, performance level, deviation and what extent the services are given that is relevant for the sustainability.

SMKK has given much importance on baseline study and performance evaluation at different stages of the project implementation to improve the service delivery mechanism. These strategies are also improving the competences of the staff members through the feed back and lessons sharing from the evaluation. As usual, the overall performance of the projects implemented during the year was found to be highly satisfactory. The project coordinators, assigned for each project and the field team have shown their dedication in accomplishing their duties and tried to complete all planned activities within the time frame allowed for the project.

SMKK has running with the support from different national and international development partners. It is absolutely a non profit organization and has no large fund for undertaking long term program for the target beneficiaries. Therefore, SMKK is placing its appeal for financial assistance from institutions and individuals to support in the development initiatives that urgently needed to support the disaster victims and other vulnerable communities.

SMKK has experienced and dedicated staff members who are committed to their jobs and the organization follows the strategy of human development for which we can assure that any resources received from the donors would be best utilized. Our financial management is more transparent and audited by the competent Chartered Accounting Firm in each year and has no restrictions for any donor agencies for verification.

We have strong relationship with the local administration and local government that privileged to ensure our services to the most deserve beneficiaries without any discrimination. We tried our best to reach the most vulnerable and deprived people and stands besides their initiative with our limited resources.

To reduce the gap between the well to do people and resource poor, many issues like reduction of poverty, gender discrimination, child labor, polygamy, early marriage, school drop-out, ill health, malnutrition, reproductive health and hygiene management for the adolescents and women, maternal mortality, pre and post natal care, under weight birth of

babies, domestic violence and violence against women, safe drinking water and sanitation, unemployment and under employment and many others need to be addressed to improve the livelihood of the people, peace and harmony in the society.

SMKK has persistently trailing forward to overcome those issues which are mentioned above. SMKK need cooperation and sharing of other development partners for consolidation of their hands. We acknowledged patronage and encouragements received all way long from a host of national and international friends and development partners and hoping their continual support in coming days as well.
